A private and confidential letter to and for all immediate family members, to and for all of the descendants of our grandfather's three younger brothers (all of the Chow surnamed people in Hawaii), and to and for all descendants of China's Chou Dynasty in China and worldwide, as well as to and for people whose ancestors migrated to Hawaii and America along with us, who make up and were a part of China's royal family and Chou Dynasty history.

Dear family and clan,

We are China's royal family, royal Han-Chinese family, as opposed to being of Manchurian ethnicity. Much of our history (our family's and clan's history), genealogy, and identity has been preserved, yet quietly hidden from public view and understanding. Family members were shown our family heritage in symbolic terms, sometimes on a need to know basis. There were those who saw but did not know or understand and could not, therefore, take advantage of this heritage. Others looked on not knowing and not having any sense of our family's identity and significance, especially with regard to world events and history. Not knowing and without having any historic knowledge of who we were and not having any sense of the great significance of our family's ancient and Hebrew ancestry and family's ancestral past. In the very early beginnings of China's history, descendants of Huang Di were the main and most powerful family in China. And they were China's royal family. Our immediate family surfaces from time to time in China's history as China's royal or Imperial family and it was our family, rather than any other family descending from Emperor Huang Di, that set the tone for many great things in China's history either upfront or behind the scenes. <http://zhoudynasty.freewebsites.com>.

Though some of us have not been on good terms, I do need your help as a family and clan. I have health problems, a bad back and two bad knees and no money to pay for adequate medical care. I petitioned US President Obama for official recognition and for US government funds, but he refused to responsibly respond. My back injury is described as permanent mid- and lower-range back-muscle damage and my knee injury as torn meniscus with possible bone, muscle, and nerve damage. I am unable to walk without the aid of crutches and leg braces, which I must use daily. <http://himyaosui.wordpress.com>

This, in my eyes, does not bode well for my political-cultural heritage as China's official emperor-in-exile. Yet, such things fall within the range of being human and human frailties. Deficits can be overcome and are not negatives, especially when you consider the very positive tract that our heritage promotes and falls upon. Very few know the true meaning of leadership and very few know or chose to understand our relationship in this cosmic scheme of things and end of times. Who are we? Do we have a role or set role to fulfill in the universe? Is our existence God-inspired or God-mandated? What does it mean to be an imperial son of Heaven (the true Heaven)? Do history text or college text explain our role in society and in this universe? Just how are family members to gain knowledge of our identity and our purpose under God, if any? Who dictates and can this dictation be proven correct and in harmony with God?

I hope that you will help me by helping me organize and find people to organize (1) a non-profit organization to insure that the heritage's financial needs will be met and (2) that my objectives as a legitimate foreign head of state (Emperor of

China) are provided for. If you do not answer this letter, as President Obama has, also, done (over 200 official and unofficial letters), then I hope that I might be able to find other people who are willing to help a good, humble, and sincere foreign head of state (officially Emperor of China) meet his family and political-cultural objectives.

A) I want to return to China with the goodwill and love of the American people. B) I want to take my rightful place as China's current succession emperor. C) I want to rectify all of the wrongs of an illegal and criminal American-led war against the nation and people of Iraq, as I have been its political negotiator, and I am willing give testimony to a joint session of US Congress and to a general assembly before all member nations of the United Nations. I secured Saddam's agreement in 1990 to his withdraw from Kuwait, which the U.S. government had stubbornly refused to acknowledge. The world should be told and matters should be rectified so as to reflect the truth of this matter, which will end all current conflicts in the region and help bring about a better and lasting peace. Those of you who participate in this effort and in family efforts as mentioned above will become millionaires and greater as a result.

The American policies and foreign affairs activities towards Syria, Iraq, and Libya have been unfair and criminal. And if President Obama is willing to listen, I hope to help the United States of America create a better and fairer foreign policy towards other nations. For the United States of America, it is important to always stand and act righteously. When our nation acts criminally there is no other nation that can stop her. I am an honest and upright man, by the true god's standards, and I am willing to speak out in corrective activity to insure that true justice exist and prevails on the world's scene. And it is this standard that I hope will prevail in China as well as in all nations around the world.

There are many world governments that try their best to rule and govern their nations and people in a responsible and upright way, yet things do go wrong and there seems to be no corrective mechanism today that could insure that true justice, dialog, and negotiation takes place. While I am not in power in China and not officially recognized, I filled that role with respect to the conflict in Iraq and Saddam did agree to all of the demands presented to him for his withdrawal from Kuwait. It was the US government that reneged and refused to agree and refused to set up a lasting road to peace in the Middle East.

All of the above are and has been my life's and Chinese heritage's goals, matters which I have been directly involved with since 1990-91. I would be very happy to hear from you at your earliest convenience. A short reply to acknowledge receipt of this letter is hoped for and expected.

Would you, all of you, be willing to meet with me to discuss our family heritage? What you as China's royal family are obligated to do, what it means to be China's official royal family, what all of you should be doing in relationship to the heritage and to world events, what all of you should be standing for already has already been defined by our recent and past ancestral doings including my own activities abroad in the Middle East and with regard to the many world conflicts where I had a hand in successfully ameliorating under our family name, has already been mandated by history and by me.

It would be very good to come together as a family and to return this noble heritage back to China. (a) Doing so with the love and blessing of the American people and government. (b) Doing so with the love and blessings from God. (c) Doing so in the interest of the people, nation, and government of China (without causing any political upheaval in China). And (d) doing so in God's name and acting along side of his holy standards.

It is good for nations to be at peace and good for all nations to have a greater understanding of our world, the greater world around us, and govern their lands in peace. And there are a number of issues in which China and Taiwan disagree, which can be resolved. Our purpose as China's royal family is to help our nation and its people come to a wider understanding. When all parts of the puzzle are had, on the puzzle board, this world's scene, governments and people are better off and a greater understanding and more open honesty can be had. I and what I represent is and always has been upright. It is the kingdom of the true god.

Sincerely yours,

By Chinese custom and tradition, my personal identity is held secret. It is also held secret for security reasons as I am still involved in foreign government negotiations and travel abroad as well as public appearances with regard to Asian history, diplomacy, and the Iraq War (where I have been its negotiator). I am publicly known as His Imperial Majesty Yao Sui, Emperor of China and Head of State in Exile.

This letter is being sent to President Obama and Secretary Clinton and I hope to hear from both of them in all kindnesses.

It would be a responsible thing for President Barack Hussein Obama II to respond to my over 200 formal and informal letters and to meet with me to straighten a criminal US foreign policy and foreign affairs activities in Iraq, Syria, Libya, and Afghanistan. To restore humanity and the rule of law as it has been the US government that has been the violator of international law with respect to these nations and has brought about the deaths of many thousands of innocent souls. The world should be told of our nation's criminal activities and our nation should compensate other nations so wronged.

We are paternal Hebrews, who were adopted into Emperor Huang Di's family in very early times. Our family's origin is in Iraq, where millions of family members still reside.
