To the Honorable Barack H. Obama II and Secretary Hillary Rodham Clinton,

If some serious illness hit the State of Hawaii and its people or even merely just, somehow, China's current succession emperor (who is the head of state of China by virtue of his title), would you not do something for this man and provide for his health care, while he is a guest (visitor and resident of Hawaii) in your nation?

If he wrote to inform you of his condition and that he would like to receive adequate and proper medical attention, without alarming the news media and the world, would you help this man and see to his health while he is in your nation?

I am such a man and I am immediately requesting your attention to this matter. Please immediately respond to this letter. Likely, I have a very bad cold and occasional cough (SARS?) that doesn't seem to go away and I am very concerned about my health. I am poor (without any money), unemployed, disabled, and homeless. Would you not investigate this matter and immediately have someone speak to me even prior to such an investigation to reassure me that you are on top of this matter? Additionally, I would like an official statement as to whether or not you are going to recognize my family's heritage (refer to the above-mentioned websites) and my efforts in 1990 securing Saddam Hussein's agreement to withdraw his troops from Kuwait (something that went unpublished in the news media), so as to qualify for U.S. Secret Service protection, while I am a guest in your nation.

Sincerely yours,

陸遠帝

"The fatality of SARS is less than 1% for people aged 24 or younger, 6% for those 25 to 44, 15% for those 45 to 64, and more than 50% for those over 65." I am 63 years old. Do I have anything to be concerned about?
