

MY PROJECTS:

1. By the history of China and as China's official Han-Chinese emperor, as an American and Christian, a humanitarian, someone who was responsible for securing Saddam Hussein's agreement to the Bush White House demand for his withdrawal from Kuwait in 1990-91, as the George H.W. Bush-Saddam Hussein negotiator, and as an individual, I wish to see and put an end to the Iraq War. This means the complete withdrawal of all US troops from Iraq and from Middle East military bases, peace between opposing forces (the Middle East and the United States of America) and a full and complete apology and disclosure from the United States of America for the illegal and murderous war it brought to the people and nation of Iraq. I wish to see full compensation to all of the people and parties who were wronged by the United States of America and the truth of this war made known by the United States government and by this world's newsmedia.

2. I would like to organize and return to China, China's official Han-Chinese Imperial succession, Imperial family, and clans.

3. I would not mind being Emperor and President in China and having a great say on China's domestic affairs, foreign policy, and foreign affairs. And I am looking forward to doing so with great and eager anticipation. I am an American, loyal to the very high and lofty principles found here in this nation, and I am Chinese. I believe in God and in true justice. Only when America's sins have been corrected can she experience the true respect of nations and take her rightful leadership position in the world as the leader of this world and globe.

4. I believe in the Christian faith and true god, Jehovah. Over 80 percent of China is atheist, whereas over 80 percent of America (US) professes a belief in Christ. I hope to bring the true god back to China, once again, and to preach and to teach the whole nation of 1.4 billion people about God.*

5. I would like to see a modernized and democratic China and I will be moving in that direction, rather than a military conquest of China as advocated by some on Taiwan. I view China as a good and upright nation of people, who will have a friendly and upright relationship with America and the Western world. And I will move towards these goals and ends.*

OTHER:

I would like to make friends and get to know people great and small. At this time, I have many friends in passing, good people and casual acquaintances, yet nothing more. Many of these people could be said to be informal friends, trusted friends. I do not belong to any professional business or social groups (something which I would like to join).

I don't mind having people sign my guestbook or join me in political discussions on my blog and even asking me to be a guest speaker at their organization meetings, clubs, and schools.

I am currently poor, homeless, unemployed, and disabled, without a source of income. From 1969 to 1974, I worked as a carpenter. I carried heavy lumber and other things in my employment up and down stairs. In 1975, my back gave way and I became permanently disabled not able to work or perform full-time employment. I work with great pain for a four-hour day, due to the great pain of lifting objects and I am not able to bend or work longer. From 1975 to 2010, I was able to work for four hours a day (with great pain occurring) and I needed at least two days to heal before going back to work. My income averaged about \$300 per year from 1975 to 2002 and from 2003 to 2008 about \$1,600 per year in gift money for helping friends clean their homes and yard. As of August 2010 to date (date of this writing, January 20, 2011), I developed torn ligaments, bone spurs, and possible bone fractures. Mostly in my legs (knees) and I am unable to walk without the aid of crutches. I am now, again, unable to work in gainful full-time employment with my 2010 injuries and I am, again, permanently disabled.

I have arthritis in my fingers (both hands). Yet, with all of my injuries the federal government (Social Security Administration) has refused to give me any kind of disability compensation. Could this be politically motivated? I even wrote to President Barack Hussein Obama II and he too has refused to reply and has refused to intervene in my maintenance, in spite of the fact that I am a foreign head of state (Emperor of the nation of China) and guest in your nation!

I am fully aware of Obama's birth and the fact that he is not legally President. Based on truth, President Obama was born in Kenya and adopted by his step-father. If Obama was a US citizen then he would have had to file re-entry papers on his return to the United States of America, which he and his mother did not do for him. Legally, President Obama is a citizen of Indonesia and no one in America, or not many (not many with political power), has sought his ouster. Born in Kenya and a citizen of Indonesia, he is not by US law allowed to serve as President. Judges have illegally and/or wrongfully blocked Obama from producing his birth certificate. Is this the kind of nation we all (Americans) can be proud of?

We illegally bombed Iraq (Iraq and Kuwait) as well as made war with other nations in the process. We killed/murdered two million Iraqis and other people in the process. Is this how our nation operates?

When a good man (Emperor and head of state of a nation) says that he wants to return home to his nation, to democratize it and to usher in a new age of Christianity (in a heathen nation, where over 80 percent of its people are atheist) and America, American Christians, Christian groups and denominations, REFUSES to help/refuses to heed God's call (Mat. 28: 19, 20), what will foreigners think of this nation and perhaps see in disbelief? Just how can America rebuild its image abroad? What must you people do? And are you people really blind to God and to the truth?

We, this nation, the United States of America, had just killed and murdered two million Iraqis from 1991 to 2006 due to an illegal war (Didn't your government explain this to you or did it hide/not publish the truth?) and I was the negotiator who had secured Saddam's agreement to the Bush White House demand for his withdrawal from Kuwait. Why too did our nation's news media not publish this story? I sent out over 1,400 press releases to every newspaper, radio and television station in our nation as well as to all of the big networks: ABC, NBC, CBS, Fox, and CNN. Yet, no one has published this story. Why!? When or will this story ever be told?

Eighty percent of the population of this nation professes a belief in Christ, according to the Time Almanac, whereas over eighty percent of China is atheist. Are Christian religions and American Christians true to God? Especially to Christ's words at Matthew 28: 19, 20?

I am poor, unemployed, and homeless. Disabled and, I suspect, dying. I am, also, going blind. The federal government has refused to give me aid and assistance of any kind. Does anyone care and is willing to help? Perhaps, a lot of good men and true Christians face death and will die not ever realizing the fulfillment of their dreams (like mine above, which I would like to accomplish in my youth and in good and perfect health). Why is it that no one wants to help? And what is the true nature of this country and its people? Are we truly good people with hearts towards God or do we oust people from our churches who criticize us. Mine refused me food and cut me off from all food donations.

I need food, a healthy diet, and a safe place to live and sleep immediately. I need housing, a computer, and money to continue my work and occupation as a business and political consultant. I would like to return to China to affect change. To be able to build a better nation, a nation of good and upright laws and good and upright people.

Lastly, I have no security protection. My hope though rest with God and also, I hope, with friends. Write, contact, and/or meet me and make a friend of me. Tell others about me, whether wealthy or poor and even the press (US and world news media). I am looking forward to the above story being published and told.

I pray for God's blessings and that my health holds and does not get worst. Please pray for me. Write to me, meet with me, as I am seriously ill and in need of friends. Lonely and poor, sad and downtrodden. My doctor told me of my condition yesterday (January 19, 2011), so I am drowning in my sorrow and very likely near death.

January 20, 2011

*Notations added on 01-26-2011 with minor corrections throughout this text.

RECAP ON MY FAMILY'S HISTORY, GENEALOGY, AND MIGRATION

We are descendants of China's Chou Dynasty/Zhou Dynasty (See our family's genealogy records). The main lineage goes by the family surname of Chow worldwide. Other branches of China's ancient Chou Dynasty (1122 BC to 256 BC) go by other surnames. Some of the major surnames in our family's dynasty lineage are: Chow (Chou, Zhou), Lum (Lin), Chang (Cheng), Goo (Ku), Wu (Wo, Woo), Ing (Ng), Ching (Cheng), Ho, Chiang, Mau (Mao), Choy (Tsai), Sun, Yap (Yip, Ye, Yeh), Wong (Wang), Lai, Kee (Ke), Kwock (Kwok, Kok, Kuo, Guo), Lau (Liu), Loui (Lui), Dang (Teng, Tang, Deng, Dung), Siu (Hsiu, Hsiao) and Young (Yang, Yong), also Chock (Cheuk, Cho), Tom (Tan, Tam) and these are people whose families generally have their origins in and from our dynasty in early China's history 2200s BC to 256 BC.

Two, my family's genealogy threads throughout the whole of China's history and in connection (relationship) with each ruling clan. The official historic dates of my family's dynasty rule of China are 1122 BC-256 BC, 557 AD-581 AD during the Wei Dynasty period (Hsienbei tribal period), 960 AD-1276 AD during the Five Dynasty and Ten Kingdom Period, and resurfacing in 1643-44 with the Manchurian conquest of China. Prior to that and throughout China's history, our existence is one of a large family or clan of people.

Three, In the 1610s and 1620s, my family makes marriage-ties with China's then-ruling Chun clan and family joining the two clans together as one to strengthen the Chun's Ming Dynasty. When Manchurians (Manchurians are foreigners and not Han-Chinese people) conquer China in 1644, the Imperial family consisting of the Chou Dynasty (Chow clan) and Ming Dynasty (Chun clan) go into hiding for 200 years and continues China's official Han-Chinese succession. Upon Manchurian conquest, the Imperial Court and others who traditionally hold the Mandate of China (Mandate of Heaven) quietly and secretly installs the Chou Dynasty King descendant as SHUN CHEONG Di (Emperor of China).

Four, four boys (Imperial lineage holders) around the late 1800s were brought to Hawaii representing the Imperial Chou Dynasty. Many other Chinese came here to work and quietly to make money and (for us) continue our succession away from the eyes of China's foreign Manchurian government. My family then qualifies for U.S. Secret Service protection as we are exiles from China coming here to live, due to threats of death by China's Manchurian invaders (conquerors). And my life has in the past, here in Hawaii, been threatened and I have made requests to the then-current-President and then-current-Secretary of State for U.S. Secret Service protection and for official recognition to no avail.

Five, my grandfather's lineage is the primary lineage of the above four Chou Dynasty lineages. I maintain the memory, records, and lineage of my family's six thousand years of existence upon this earth. I uphold or try to maintain our family's honor to the best of my ability and finances. By trying to set a good record among men, the thought is in my family that others will follow good conduct especially in the face of adversity. We have befriended people of many races in Hawaii, including native and part-Hawaiians, Japanese, Koreans, Whites, and Filipinos as well as many others. The Chou Dynasty is China's most benevolent dynasty and we hold, generally speaking, to good ideals over human greed and political power. I am, today, poor, unemployed, homeless, and disabled. I am attending the University of Hawaii to better myself and to renew my study and learning skills. I am not a rebel. I try to conform to the dictates of teachers in an effort to learn and to better myself. I believe in the "establishment" whether it is the school or our government. Yet, as a good man, I believe in God first and foremost, as well as universal humanitarian principles.

Other:

The number of imperial family members within my family's dynasty is about 600 people. We are the same size as Kuwait's royal family. The Chou Dynasty has an extended circle of about 40,000 people in Hawaii, who are from our family's southern capitol of Chungshan, and 40 million to 60 million family or clan members (Chou Dynasty/Zhou Dynasty) in mainland China.

I hope that visitors to my website enjoy reading it. It was a joy producing it for public consumption. These facts are not generally published or widely-known or envisioned in college academic circles. It is my work and continual publications (in journals and by letters) that have made many people (college professors and government workers) aware of China's Imperial family's history and a bit of China's hidden Imperial culture. Scholarship is not the exclusive domain of college historians.

My family's genealogy at <http://zhoudynasty.freewebsites.com>

January 27, 2011

MY AMERICAN JOURNEY

By H.I.M. Yao Sui, officially by China's history, Emperor of China and head of state in exile.

U.S. Secretary of State Colin L. Powell wrote a book called "My American Journey". I read or skim-read his book and found it interesting. I hope to write about my American experience in like manner. In this nation, I had both good experiences and bad experiences. And there were times when Americans have treated me abusively and without due regard for who I am and without due regard for the importance of my station. On the positive side, Americans are very good, thoughtful, and considerate people. On the negative side, Americans are rude, selfish, self-seeking, mean, and cruel. Not caring about the greater good, not caring about their fellow man, being thoughtless, selfish, and self-seeking is what they seem to be. Americans, I have found, are racist; some if not many. They care for their own kind (people who are of their race and features) and they discriminate unfairly, quite often, against people not of their race. By God's standards, they would be defined as a selfish lot, ungrateful (for God's mercies), and the object of God's wrath, hated, and scorn. Often non-Whites or primitive man have learnt to be civilized with respect to basic principles of life and they conform to society for the greater good, while Whites seek, on the other hand, a selfish advantage over their fellow (non-White) man. Cooperation is the standard of many societies, whereas selfish conduct seems to be the American norm.

Will anyone or White America help me in my time of need and poverty? I am poor and head of state of China as China's current succession emperor-in-exile. How about, even, President Obama? I do not have an income and I have no place in which to live. Living in a homeless shelter can be dangerous. Then to expose one's self to the entire world without security protection is a risk. I have a bad back and I am unemployable. In August, my knees gave way and I am unable to walk without the aid of crutches. I need an MRI (an x-ray type of scan of my knees). I do not have the money to pay for an MRI. It has been about five months (since August 2010) and my knees have gone untreated. About four or five weeks ago, the State of Hawaii approved Med-Quest and I was able to see a doctor. This doctor told me that the State needs to approve of his use treating me and the cost of an MRI, before he can do that procedure. It is going on seven months in February (2011) and no MRI scan has been done. The MRI, I was told, is like an x-ray, though more comprehensive, it helps the physician see damaged bones and muscles as well as torn ligaments and the physician is then able to know the truth behind the injury and the extent of the damage. The physician is then able to know how to treat the patient and knows if the patient needs surgery. Without the MRI, the doctor is left in the dark. As of this date (January 29, 2011) the State of Hawaii has not approved of my having an MRI, my doctor told me. What can I do?

1. I have a bad back. My back injury stems from 1975, yet the Social Security Administration has refused me disability payments.
2. I have two bad knees, torn ligaments. Yet, the Social Security Administration has refused me disability payments once again.

3. Through the State of Hawaii, I receive food stamps, Med-Quest, and about \$340 of financial assistance. Med-Quest does not pay for my MRI, in so far as I know, and so my present doctor will not examine me with an MRI scan.

With a bad back, I am permanently disabled. With two bad knees, I am doubly disabled. My current eye doctor said or suggested that I may be losing my vision and may be blind within a year. He is treating me for this condition and he said that in some cases it (this condition) has gone away or improved. From the middle of January 2011 until December 2011, I will be under his care. With all of my ailments, it is not very good news if you ask me. Doesn't anyone care?

I speak to many tourists (Caucasians, Whites in Hawaii) trying to be unbiased as much as I can. They seem to hate Chinese people (myself included) and the same hatred by them is harbored and vented against other non-Whites. No one tells the truth and everyone puts up a front, yet when push comes to shove or if a person is skillful enough to speak truth with their fellow man and elicit the truth from them the real truth comes out. What is America really and truly about? Goodwill towards one's fellow men and foreign aid and a helping hand abroad or doing such at the advantage of trade and extracting wealth from lesser nations for America's good, profits, and prosperity? When this is done unfairly do Americans really care or do they go along with a criminal and unfair system?

When will ABC, NBC, CBS, CNN, and Fox, as well as the over 1,100 newspapers, radio and television stations, in our nation, ever publish my story? Securing Saddam's agreement in 1990 with the Bush administration quietly reneging is a major story indeed!

Added on February 3, 2011: Also, in 1990-91, I was the political conflict negotiator who secured Saddam's agreement to the Bush White House demand for his withdrawal. This matter was hushed up by the Bush White House and by our nation's news media. Only CNN called me, saying that they were interested in doing the story, ten years later. I balked and said that their doing it ten years later was too late and slammed the phone on their ears. It is, also, equally amazing that the University of Hawaii, history and political science professors, where I am and have been a student, were not interested in my story. Then, too, a citizen of Indonesia, who was born in Kenya, has become the 44th President of the United States of America! This says a lot about our system of government, people, and press (that many people in our nation can be conned into not going along with established rules and laws, if they are tickled and consciously tricked into a mode of conduct and thinking). Money talks and he who has money controls the political system. He who does not, even though he is truthful and upright, at times, does not have a say in our political system and world. Hey! This is my world too. Where's the fairness and when, if ever, is CNN and the rest of the news media ever going to publish my story?

February 6, 2011: My experience with American Whites has been very disappointing, somehow. When I try to speak to American Whites on the streets of Honolulu, Hawaii or to White students at the University of Hawaii, many were very maliciously very cruel and rude. It seems as if Whites only care about and help other Whites and if you are a foreigner in their country, even if you were born here, you are still a foreigner in their eyes (in spite of what the laws say). I am disabled, homeless, without any money, and unemployed. I, China's current succession emperor and head of state of China in exile, always have tried to be a good person to all races and yet Whites have treated me very badly. If I was half-dead and lying on the sidewalk, not one, from my own experience, would pick me up. So much for Whites and White students going to the University of Hawaii!

If hatreds and ethnic discrimination started in any country, from what I see, it starts and is secretly and quietly initiated by Whites. And by no one else! Truth speaks reams and not the lies told by a financially successful and advanced racial civilization of people. Apparently, such people are frauds and hypocrites in their own Christian churches as many do go to American Christian churches.

People, no matter what race, abiding in good and upright Christian principles are among the best people in the world. People, who are not Christian, abiding in proper values and principles, do exhibit a goodness parallel to people abiding in good Christian conduct. Sometimes, non-Whites uphold God's glory and grace more than Whites who have received God's glory and grace before we did.

If my mission is the voluntary Christianization and democratization of China, how can any White hate me and hate me with a vengeance. How and why? If I am successful and all of China agrees, why would any White hate me, even to the point of wanting (wishing) me dead? This is the kind of thing that I am facing in America.

What is the reply of our current President and Congress to all of this and to my many letters to all of them? As I have been sending them letters, collectively, since 1990.

February 8, 2011: I was raised as an American. I love this nation and its people (perhaps, I grew up in an enclosed bubble and have only seen the good in man from the time of my childhood and thereafter). I come from a multi-ethnic state, Hawaii, where people are usually very friendly towards one another and racial discrimination, generally speaking, does not exist. Yet, now as an adult, many years later, I see many Whites holding favor, unfairly, for other Whites and against non-Whites. Tourists on our bus system do treat me badly and abusively. How can such exist in the best nation in the world? [Notation: The term people as I use it here refers to people of all races, White, Black, Asian, etc]

Here I am crippled and unemployed (with no money at all), yet no one cares; whether press (news media), government, or our nation's people. If and when I get back to China, how should I then view America, its people and government? I am not able to meet my needs, daily needs and medical bills, and I cannot get adequate medical treatment for my back and knees.

Be no part of this world? Hey, I think that's what life is coming to, for me, especially at the University of Hawaii. Why is this so and why isn't there anyone, professors and department heads as well as school administrators, able to help guide me through the system (I am a special case and a special needs student as China's emperor in exile and disabled)? Also, too, I still have no round of friends (other students) or study group at the University of Hawaii!

February 10, 2011: My health is failing and I have no money. I hope that my rescue comes soon, sooner than later. I have a bad back and two knees with torn ligaments and worn-out cartilage (I am disabled and unable to work). I need a thorough, comprehensive, and accurate eye examination (my eye doctor said that there exist the possibility that I may be blind within the year, so he is treating me with Lumigan). To repeat, I need glasses (thin lens), an eye examination, and very expensive dental work too. My knees pains me daily and it has been six months, now, going untreated, as I have no money and Med-Quest (from my understanding) will not pay for an MRI scan. Do good guys ever win in life or is it the thief that makes his money and takes what he wants from society the real winner? What would university professors and students say to all of this? Do they realize what I have done for this nation and what I had sacrifice to get there? My knees, as of yesterday, have gotten worst. Treatment should be done as soon as possible to stave-off many future and costly problems and not after a wait of six months. Will help come too late or not at all? If so, I will, then, be paying the price! I have gone untreated for the past six months!

I value my ability to walk. I like being in good health and in good physical condition. No one wants to be crippled or an invalid.

February 12, 2011: Always in poverty and no one (not one American) seems to care if I live or die. What does it matter to any White American? In this nation there is a bias by Whites against non-Whites. If one of us dies or is hurt or injured, what do they care? I matter, because I am a good person, a Christian, and one who possesses a genuinely good heart. As China's emperor and head of state, I hope to affect political change for the better. American stands to benefit greatly and to have favorable relations with many nations, rather than to have people hate you. This should be the agenda for each and every American. Helping one man, someone like myself, someone who has the potential to bring great and major changes on this world's scene, a good man, should be of major interest to many Americans. You might not be able to help billions, but you might be able to help and influence one man who can and has the ability to affect change and ability to influence billions. Just where lies the wisdom in American goodness, in their own home country and nation?

I am poor, unemployed, homeless, and disabled. I have a bad back and two bad knees (torn ligaments and worn-out cartilage) and I have not been directly treated for these conditions (no medical attention) for the past six months to 35 years! I have no money to pay for medical treatments and the federal government and President Obama has refused to help (even if I am qualified to receive such as I am a U.S. citizen). I would not mind people looking into my situation and petitioning the press and U.S. government on my behalf!

February 15, 2011: I am still poor, unemployed, homeless, and disabled. I have no assets except for personal effects, worth about \$200. It is no fun to be homeless. I truly hate it (being homeless)! And doctors have not treated me for my back and knee condition. It has been 6 months for my knees and 36 years for my back as of this day.

If I had money, (1) I would pay for my own medical treatments instead of waiting for government monies and (2) I would be in Washington DC and travelling the world, diffusing wars and political conflicts around the world, due to my very special expertise and vision. (3) I would be in China guiding my family's clan and nation and (4) bringing the word of God to China's 1.4 billion people. These things I have a very strong and burning desire to do.

In 1990-91, I was the government negotiator between Bush and Hussein. I successfully secured Saddam's agreement to the Bush White House demand for his withdrawal from Kuwait. Many people know this to be true; from government agents and employees to media people, foreign governments and their nation's press in 150 countries around the world. Saddam agreed and the Bush White House, not necessarily President Bush, himself, reneged. I was the negotiator. I was there. I know. So, why hasn't the press published these things!

I have glaucoma and I will/may be going blind (within or less than a year). I will not then be able to do all of the above things, which is, my hearts burning desire, what I live and die for. This is my passion, only second to serving the true god. What will become of me?

My doctor said that my glaucoma (as it is in the beginning stages) may go away and he further added there still is the possibility that it may get worst and I will be blind in one or both eyes and so he is treating me with Lumigan. I have lost all passion for life and still there is no one to help or comfort me. I am not God and I, sometimes, question my own ability to stand. Why, I say, doesn't anyone care enough or want to help?

If I am successful, all of the troops will be withdrawn and the wars in Iraq and Afghanistan will be successfully ended. Americans as well as Middle East people, all of them, will be happy as war and terrorism will be effectively ended by righteous standards. US government negotiators have failed (all of them, our guys) and have not been upright in their dealings with foreign nations. That is part of the reason why Saddam trusted me. Does our press really publish the truth? All of the truth? Or does our press keep our nation in the dark about such political dealings and foreign affairs? I secured Saddam's trust and I am who I claim to be. The evidence is overwhelming and I have documentation. I know the road and if given the opportunity, or if people are willing to stand with me, positive things can most certainly happen. This is not a vain boast, but the truth. Why not put Obama and Bush to the test and see for yourselves! Proverbs 29:2

February 16, 2011: I hope that the Lumigan works and that my financial situation and peer circle improves.

February 17, 2011:

WHAT I AM ALL ABOUT

I am the product of my parental training. I am the product of my religious upbringing. As a very young boy, teenager, and, again, as an adult, my environment and friends (peer circle), as well as teachers and others, have influenced me. The Chou Dynasty is the last vestiges and the bulwark of the remnants of the Hebrew race, apart from the Jews. Just how many descendants of the Chou Dynasty (Jo Dynasty) follow and subscribe to ancient teachings and principles (Godly teachings and principles)? How many care for God, the true god? How many are upright and righteous? How many harbor a true love for mankind and one's fellow man? How many know the Bible? How many care? How many are willing to join with me? How many are willing to join with the family and uphold the teachings and principles that God espouses? Should any forsake the gathering of brothers of like-mind?

I am only human. With human frailties and feelings. I am 62 years of age. How many people in Hawaii really care? I want to feel. I want to marry. I want to have a normal life like all of the other people.

Starting in August 2010 (August 2010 to January 2011), due to my ailments, possibly due to the loss of cartilage, I shrank 1 ½ inches in height (for the very first time in my life)!

Can anyone see where I am coming from and does anyone truly care?

February 17, 2011: I can feel my chest starting to become congested (a bit). This is due to my nasal drip. I cough due to irritants in the air and, sometimes, due to, my doctor said, my nasal drip. This (the first signs of my asthma returning) has only recently started.

February 20, 2011/ February 22, 2011: I am poor, unemployed, homeless, and disabled. Doesn't anyone care? I am, officially, by China's history and by China's official Han-Chinese Imperial succession, Emperor of the nation of China. Is there no one in Congress who truly cares? And how about the American people? I need immediate medical and dental treatments, as well as a proper eye examination and thin-lens glasses. My doctors and/or Med-Quest, whatever the case may be, don't seem to want to do these procedures and/or cover the cost and pay for these things. I am a good man, an upright soul seeking to do much good in this world, especially with respect to my Chinese political/cultural heritage as China's Emperor, now, living in Hawaii in exile. In 1990-91, I was the political negotiator between George H.W. Bush and Saddam Hussein. I was able to secure Saddam's agreement and gain a trusted and working relation with him. Something that every political negotiator in Washington D.C. had not been able to do. Also, why hasn't the press (newsmedia) published the truth and why is there still a partial cover-up of this story today?

(A) I need housing, a clean and safe place to sleep. I have no savings or assets and cannot pay any past and present financial and housing obligations. (B) I have medical needs: a bad back from 1975 and, since August 2010, two bad knees (torn ligaments, possible bone fractures and spurs, and possible/likely worn-out cartilage). I shrank about 1 ½ inches in the past few months, since August 2010, and I either walk with great pain daily or am unable to walk (without the aid of crutches). I need an MRI and extensive medical treatments by doctors for all of my injuries. I need a motorized wheelchair to help save my knees. I need, in the very immediate, to have a lot of dental work, which will cost (by my estimate) between \$4,000 to \$6,000. I need very special thin-lens glasses, since my vision is very poor (estimate cost of the eye examination and special glasses is between \$2,500 to \$3,000). I have (the beginning signs/stages of) glaucoma in my left eye and I am being treated for both eyes presently. Money is needed for special eye care as Med-Quest, I believe, does not cover everything. If I am not careful my knee condition and knees can get worst. And I need to stay off my feet and not do so much walking, and I need a motorized wheel chair (\$1,500 to \$3,600). Doctors have not, as of yet, treated me for my knee and other conditions; it has been six months, now, going on seven untreated! Would anyone be willing to help me with my needs?

I am still poor, unemployed, homeless, and disabled.

February 22, 2011: I am a student at the University of Hawaii. You'd think that my fellow colleagues, other students, would also care! Yet, I've heard not a peep from them. As I look around at the faces of students at the University of Hawaii, I see people of many races including many American Whites. I really do wonder, if they truly do care? And how about University of Hawaii professors in history and political science?

February 23, 2011: Do good people ever win in life? Sometimes, I wonder. What then should be my role, if I am ever in China and my heritage position is returned? How should I view America and the people there within? If people subpoena official records in Washington D.C., they will find that I was the person who was the go-between (negotiator) between President George H.W. Bush and Saddam. That I was able to secure Saddam's agreement to withdraw from Kuwait and that it was the Bush administration that went ahead with this (illegal) war. And it was known that Saddam did not have weapons of mass destruction and that such was a fabrication by the Bush administration (by people in the Bush administration and not necessarily by President Bush, himself). An illegal war, where we murdered some two million foreigners (mostly Iraqis) in cold blood, and that our nation's press as well as the world's had not published the full truth of this war. In 1990-91, I sent out about 1,100 to 1,400 press releases. To every newspaper, radio and television station, and major news network in our nation, yet noone published the story. This is 21 years later and still no remedy or solution to an illegally fought and heinous war. Do people really care for truth, for goodness, and for God? Where are our principles, values, and ethics? Do we not care for the sanctity of

human life? Do we not obey God? And are we not Christian? Am I here alone, publishing for nothing? Poor, homeless, unemployed, and disabled! When are medical doctors, also, going to treat my back and knees? Where is our nation's news media, when you need them!???

February 24, 2011: Do good people ever win in life? What of people who have known me in a professional capacity? In my life, I have made many friends and many people, though my not having the opportunity to meet them, do know of me. Of them I ask, "Do good people ever win in life?" Do we really measure up and/or live by the right set of principles daily? I am poor, unemployed, homeless, and disabled. Doesn't anyone care?

The good that we do does come back to us, yes? If America really cared, just for one individual, myself namely, and I was put back on my feet, I am the person out of all individuals in the United States of America with the knowledge and ability to end the Iraq and Afghanistan wars. Wouldn't Americans want to see their sons and daughters come home safely and that these wars are won and ended. Won through wise and godly diplomacy? Are Americans bull-headed, belligerent, bombastic, and without the love of God or are they loving and kind, people, with humanity and true consideration for others? Do Americans think about winning at all cost, above others of other races, or do they think about true justice and fairness for all people around the world?

Does goodness or evil win or prevail in life? Good question. Perhaps, the answer differs for everyone and differs for each individual. Should evil win or prevail? Certainly not. But, does it? Sometimes yes and sometimes no. Why are people evil and why do they chose to do evil unto others? Sometimes, people chose to be evil or chose to harm others, out of pride. Out of a feeling that someone had topped them and now they are going to top or destroy the other person at all cost. Evil prevails in the hearts of men. It remains there as people, when caught, lie and then confess a false repentance. Evil will always be evil and evil remains until destroyed. Buyer beware! Like the gopher that pops out of his hole, in the arcade game, evil is a constant menace until finally destroyed.

Are people good or evil and why do people chose to be evil? Why would anyone in his right mind consciously chose to harm, hurt, and harass another human (a person who had done him no harm)? Perhaps, the evil doer is suicidal. Perhaps, he refuses to subdue his own ego in favor of someone greater or more worthy. Or, perhaps, it is a case of pure jealousy.

February 28, 2011: Sometimes, you have to trust people (medical doctors and other people) that they will do their best for you. Sometimes, you have to employ the philosophy "Buyer beware!" There is a balance in life, a happy balance, and I hope that either God will bless me or the American people will find it in their hearts to help and to bless China. My mission is to return my family back to China and to insure that the nation of China will always have good government. Many Americans do not care for this as a strong China, they feel, will weaken America. Once upon a time, chocolates were reserved for the very wealthy to eat. Well that situation no longer exists as chocolates are for everyone. The old paradigms of the past no longer exist and a new day has arrived where God may now be worshipped by rich and poor alike, heathen and Christian. When non-believers come to God, they must repent and put on new skins and must become a new person. If God is true, then one day he will judge the entire earth as to their conduct in relation to him and in relation to his standards and goodness. Yes? 80 percent of America professes a belief in Christ and will, by theology, be saved. 80 percent of China has rejected God and are atheist, and will be destroyed (will be put to death). Can any god be so cruel? We, people, are given a new command to love (show love) to one another and to preach the word of God's coming with dedicated love to all of the nations. Should I not go to my family's nation and bring the word of God to my people and nation? Will I not truly receive the love of Christians in this task? Or are people liars trying to find fault with other people and trying to find a way out of their many stated lies? How many people and how many Christians are willing to help me with my mission and tasks? Any volunteers, people!??? How many people are willing to follow God's command. How many Christians are truly Christian?

"God is love. And he that remains in love remains in union with God and God remains in union with him." After Christ's resurrection he instructed his followers to preach the good news of God's kingdom throughout the entire earth. Jesus said, "Go ... make disciples of people of all the nations ... " 1 John 4:16; John 13:34,35; Hebrews 13:1-3,16,24; Matthew 28:19,20. And this includes China. 80 percent of the population of the United States of America professes a belief in Christ, whereas 80 percent of China is atheist. Should not American Christians go with China's father of the nation bringing God's word back to China once again? Such will strengthen China. Do Americans want this to happen?

March 1, 2011: My chest congestion has slowed or been halted. My breathing is closer to normal. I still, though, have not advanced in obtaining my objectives. Does anyone care? Relatives of mine, close and distant, friends, and colleagues. And are there any true Christians in America? And where is President Obama?

March 2, 2011: (1) 300,000,000 people in America and no one cares for my agenda? No one wants to assist a true Chinese king bring God's word to his nation of people? No one cares to be obedient to Christ, when Christ commands his followers to preach about the good word and to teach people about God? Matthew 28:19,20. (2) 300,000,000 people in America and no one cares to minister to a true Chinese king, who is poor, unemployed, homeless, and disabled? And this king is a true man of God. <http://himyaosui.wordpress.com>. So be the fate of America!

March 3, 2011: Well, my situation in life has not changed and I am still homeless, poor, and disabled. While I do hope that our government will help me and officially by China's history I am China's current emperor-in-exile, head of state as China's current succession emperor, I am still going nowhere/nowhere soon or too fast. I try to not be a burden to others and I try to hold my own weight and upkeep, as much as possible. I honestly try my best to not offend others and I try to make friends rather than to make enemies. If I had one wish, I would not wish for riches for myself. I am a giving person (a Christian and an American of Chinese ancestry), who tries to think about others before thinking about myself. If I had one wish, I would wish, unselfishly, that the American people will find it in their hearts to help and to bless China. I envision a free China under China's communist government leaders. I envision and would like to insure that China will always be a good nation of people and that its government will always be upright. I envision a China with good relations with the West. Under my leadership, all of these things will occur as I am well-placed in China's political hierarchy. My second-cousins in China includes the late Chow En-lai (http://en.wikipedia.org/wiki/Zhou_Enlai), Chiang Kai-shek (http://en.wikipedia.org/wiki/Chiang_kai_shek), and Sun Yat-sen (http://en.wikipedia.org/wiki/Sun_Yat-sen) as well as many others. I am related to many greats in China like Chang Cheng-kung (<http://en.wikipedia.org/wiki/Koxinga>), August 1624 - June 23, 1662, who was a great military general who defeated the Dutch army. It would be a shame to throw this very highly esteemed heritage down the drain. My family heritage is a one of a kind and, perhaps, the most esteemed Chinese lineage and heritage in the world. My mother's father descends from the Ch'ing Dynasty emperor Dao Guang (<http://www.britannica.com/EBchecked/topic/582935/Daoguang>), the greatest figure out of the 1820s to 1850. My father's mother descends from Lin Tse-hsü (http://en.wikipedia.org/wiki/Lin_Zexu), 30 August 1785 – 22 November 1850. My descendancy (family's lineage) comes from very many celebrated figures (honorable, esteemed, notable, educated, scholarly, honest, and upright figures/role models) of China's recent past (1600s to date), including all of those mentioned above.

One, hardly anyone visits my website. So, I feel as if I am talking to myself. This is something that I do not ordinarily do and abhor. Two, while everyone has an upright and grand vision of themselves, so do I. I have my good points and I have my bad points. Keeping a diary is like talking to yourself and being able to see and examine your thoughts and ideas. Like a self-checking mechanism. A measure of one's progress and self-worth. A measure of how much one has accomplished, done, or needs to do. An intellectual exercise in record keeping. Perhaps, an exercise in futility.

I have no friends, close friends or circle of peers. As a Christian, I build on goodness. Who and how many people are similar? I have no money and my medical needs have not been met (it has been seven months, now, from the beginning of August 2010 to March 2011). Unbelievable!

If someone asked me if I would be willing to do it over again, be a conflict negotiator in opposition to President Bush's Iraq War and stand up for truth and justice, even when truth and justice means insuring that a dictator will be treated fairly and within the bounds of American and international laws? Yes, I would do it all over again! There are many people like myself, people who believe in true justice and are willing to suffer in favor of goodness and upright principles. For without right conduct in this world and within our nation, laws would not work and our society would not function. Chaos would reign supreme and people (society) would be disobeying the law in favor of doing their own thing. This just cannot occur and this is highly unacceptable!

What I need now is an income stream, so I can pay for my upkeep and maintenance, medical bills, dental bills, optometrist and ophthalmologist bills, the cost of special thin-lens glasses (as my eyes are very weak), the cost of housing and food, and the cost of my daily needs. My mother used to say, "Water, water, all around and not a drop to drink!" What she really meant by this

saying was that resources do exist, which could solve many problems, yet resources are inaccessible and, for our own life, none could be found or applied to help save us, somehow. Unemployed, disabled, and homeless with no money, no savings, and no income. Does a democracy always reward people who act in its best interest? In the best interest of its people, unselfishly? Should I blame society? By the principles that I carry, I never have.

March 4, 2011: I added information about my clan's martial arts practice and information on my family's and uncle's Chinese Kempo (Professor Chow, William Kwai Sun Chow) to my website under the heading of Jow Ga. Professor Chow's father, named Hoon Chow, is a younger brother to my grandfather Chow Lin. With respect to Hoon Chow's name, Hoon is his personal/given name and Chow is his last name.

Tonight, March 4, 2011, Friday, we had a black out at the homeless shelter where I am temporarily living at as a resident, due to the wind, rain, and storm. Our electricity failed and our power generator did not work. I wish that someone wealthy could donate to this shelter or a fund raiser could start a drive to raise money for our shelter to pay for building improvements and repairs. We need toilet and shower repairs, and repairs to our generator and air conditioning system. The shelter feeds some 400 to 500 people daily and shelters some 200 people and families. This is a Christian shelter which is now run as a secular shelter by a few outstanding people in our community. Unable to help, I feel powerless!

March 7, 2011: Today, I feel suicidal. I have been permanently disabled for the past 35 years and the federal government has continued to refuse to give me SSDI, which I am entitled to get by law. Luckily the State of Hawaii has, for the past three months, or so, allowed me to receive food stamps, Med-Quest, and \$340 in financial assistance. This month, though, March 2011, lo and behold, my assistance stopped! I have no idea why, except that a letter from the State of Hawaii said that my assistance would only last until January 2011. I got State assistance in January and February, though. And it was not until March 1, 2011 that my assistance stopped. Does the State of Hawaii now consider me to be able-bodied and able to work? Was my request for medical reconsideration wrongly worded and did not state my case in clear language. <http://chinatownhawaii.com/letters/nia01c.pdf>. Also, refer to my affidavit which contained facts already made known to them, previously, in other documents and letters. <http://chinatownhawaii.com/other/affidavit01.pdf>. I have been up all night, at Sinclair Library, and not eaten (as usual) and I feel very bad about my situation. I still put my trust in God that he knows best, yet I am alone with no one (no one and no one out of my 300 family members in Hawaii) directly helping me. When a person is permanently disabled should they be denied federal and State assistance? What happens to such people when they are unable to get financial and medical help? A dear friend of mine had a family, a few young children and a wife. He got by in life, being permanently disabled, with Social Security assistance and then the federal government threatened to cut off all of his aid (disability assistance). They told him that he would have to go for an operation and if he did not go for an operation, he would get no federal assistance. The doctor told him that the chance of his dying was 50-50 and the federal government just didn't care. Well, to be able to feed his family and small children, the man chose to go for the operation with a 50-50 chance of dying. He did not survive the operation and he died. I think that Social Security Administration and even the State of Hawaii can be very cruel and inhumane/ungodly. To allow people to die and to see a man's wife and children starve, I think is very cruel indeed!

March 8, 2011 (9:36 AM): Here I am, this day, still poor, unemployed, homeless, and disabled. Seemingly going nowhere, nowhere too soon, and not being productive. In my life, I want to make friends. I want to be kind and pleasing to people and not an enemy or displeasing. As of this day, I have no close friends. I have about 600 direct family members in Hawaii, yet no one practices the Imperial culture and no one is with me. The extended clan consists of about 40,000 Chinese people from my family's southern district in China called Chungshan. We are northerners, who migrated south and to Hawaii to escape Manchurian persecution and certain death. President Obama has refused, for the past two years, to grant me and my family official recognition and U.S. Secret Service protection. President George H.W. Bush is considered a family friend (the relationship is mutual), in passing and from afar. And from what I can see of him, he, in my mind, represents the conservative agenda in America very well. If there is any U.S. President or politician that I like it would be the Bush family (Preston, George H.W., and George W. Bush). I like Eisenhower, Nixon (whom I campaigned for as a member of the Young Republicans in Hawaii), and Reagan. On the Democratic side of the fence, I like Kennedy, Johnson, Humphrey, Ford, Carter, and Clinton.

I think that our current U.S. President (Barack Hussein Obama II) has been doing a good job as President, yet it is very funny that the American people have not impeached or exposed him as he is not even an U.S. citizen. If President Obama is deficient, it is in his refusal to announce the truth behind this illegal and heinous war, apologize to the American people, and apologize to the people of Iraq and other nations affected by our nation's criminal and illegal war; cease all illegal military activities, indict all who were responsible for this war, compensate the nation of Iraq, and compensate all people and nations so displaced or affected by our illegal and criminal war. We, America, are a good nation, an upright nation of good people, God-fearing people, upright in our stance and political dealings. Our future as a nation is bright, but not as a criminal nation that is and always is untruthful, belligerent, and responsible for the murders of tens of thousands of people around the world. There is a better way to go for our nation and that way is through diplomacy and upright international political dealings. Has President Obama ever heard of the word "diplomacy"?

Obama is legally a citizen of Indonesia and British subject, based on his birth and step-father's adoption of him. Born in Mombasa (Kenya) to an American mother and Kenyan father and later adopted by his Indonesian father (Lolo Soetoro). Barack Hussein Obama II, our nation's 44th President, is Indonesian! Will this nation ever admit to the truth or will it deny the truth? When an American travels abroad for any great length of time, upon his or her return, he or she is required to file re-entry papers. Foreigners/illegals, on the other hand, need not do this. Is any man or sitting U.S. President above the law? Are we a lawless nation? A nation of cold-blooded murders? When will an illegal Iraq War (and accompanying wars and conflicts) cease and when will the United States of America ever publish the truth of this illegal and murderous war that took the lives of some two million innocent Iraqi citizens? And when will they ever compensate Iraq and its people for all of the damage that we have done to their nation and people?

Will we, now, go into Libya, illegally and criminally, and lie about it in our nation's newsmedia? Not telling the American people the real truth behind this conflict. ARE WE A CRIMINAL NATION that murders people around the world and disregards U.S. and international laws for our own greedy purposes, especially, when diplomacy works? The U.S. government has refused to employ me and my team of negotiators, when I definitely want to go into Libya and resolve this conflict to the satisfaction of God, good, and upright principles!

(To be finished later)

MY PURPOSE IN LIFE

1. The Christianization of China.
2. Guiding and leading China, as China's current succession emperor, in matters of domestic affairs and foreign policy and affairs.
3. Insuring that China will always be a good and upright nation and that its people as well as government administrators are always upright, fair, and just.
4. Publishing the background of my family's origins and history for the Chinese people.
5. Guiding China as a good nation, an upright nation, in the 21st century.

MY APPROACH TO LIFE IN AMERICA

1. Non-combative, non-adversarial, and friendly with an open and honest style of communication.
2. As a Christian, I do not try to exalt myself. I take the role of a learner, admitting that I am a learner knowing nothing.

WHAT I HOPE TO GAIN BY THIS APPROACH

I am basically a good man. I am poor and I do not have the riches of this earth. The Chou Dynasty is China's most benevolent or virtuous dynasty in China's entire history. My family's dynasty is based on God's goodness from our early beginnings and so I try, unlike others, to maintain these principles and ideals. My father and grandfather fell into this mode of conduct, before I was born. And I, therefore, I hope to gain the love, blessing, and approval of God and the love, blessing, and approval of the American people for my mission and return home to China. Foremost, though, is to gain the love, blessing, and approval of God for without God life is meaningless and nothing can succeed or exist.

MY VISION

I am a good man. I am an American. I hope to do many good things for many people in this nation and the world, throughout my entire life, unselfishly, because this is what I believe in and these are the principles that I carry.

Where is President Obama and what about Congress? Do they really care? Should they? A foreigner lives in their midst, in their country, head of state of China as China's current succession emperor. The man is poor, unemployed, homeless, and disabled. He needs medical treatment and he has no money and cannot afford to pay for medical treatments. Should this man be left to die, unattended, in our nation? What does this say about human rights and America's benevolent love for kindness, God, and humanity? And this man is of paternal Hebrew descent
